

BIO

I'm a 8+ years experienced software developer committed on bring resourceful and solutions to every challenge I face. I am a full-stack developer with extensive knowledge in diverse programming and scripting languages. Also have an extensive knowledge on design and management relational and non-relational databases. I have vast experience managing physical and virtualized systems as well as their optimization and maintenance.

I am a professional developer, persistent and committed to always take a step further to achieve the objectives with integrity and excellence. Always focused on creativity to generate efficient solutions to every thing I do. I have great experience in teamwork, on the contribution of ideas, and in the organization of tasks, with various tools and oriented to agile methodologies.

WORK EXPERIENCE

2017 > TODAY

SWITCH COMUNICACIONES > SENIOR DEVELOPER ENGINEER

Development of IVR applications, web applications, transactional gateways and integrations tailored to the client's needs. Within which I must perform project analysis and evaluation which allows me to participate in R+D. In order to be part of the new technologies and project lines evaluation and insertion. I make daily continuous improvements, preventive/corrective maintenance, and technical documentation for support and the client.

Some projects,

IVR Platform for Mobile and Home Customer Service, New Reverse Charge Calls, Visual IVR, among others (Claro Chile)
Galaxy Intelligent Connect, web contact center system

Previous charges,

2011> 2013 Junior development engineer
2010> 2011 Programming Technician

Some technologies,

#JAVA # J2EE #PHP #JS #HTML #ANGULAR #CSS #SCXML #CCXML #VXML #IVR #VIVR #PYTHON
#DJANGO #KANBAN #SCRUM

2015 > 2017

BRINCA (ex MMC CONSULTORES) > HEAD OF DEVELOPMENT

IT leader inside the R&D area, responsible for development of current and new digital platforms. Some of the activities I have done,

- DevOps for technological infrastructure, databases, dyno/containers, cloud servers (AWS and Heroku), as well as all local infrastructure (routers, switches, VPN, monitoring and optimization of networks).

- Change management, continuous integrations and support for web applications. As well as lead and release projects developed by other technology providers. I carried out fund raising in various funds and instances in CORFO and other institutions.

Some projects,

CTO at Innk SpA, a platform for management of innovation within organizations.
Head of development at Educación al Día SpA, an information platform for users linked to the world of education.

Developer at Podemos Innovador, a project promoted by MMC and the CIAE of the Universidad de Chile focused on the innovation measurement in educational establishments.

Developer at Ranking C3, project created by MMC and driven by the UDD focused innovation measurement in the corporative market.

Some technologies,

#ROR #RUBY #PHP #HTML #JS #JSON #AJAX #KANBAN #SCRUM #GOOGLESRIPTS
#AWS#HEROKU #MYSQL #POSTGRESQL #DRUPAL #WORDPRESS #ANDROID #MOBILE

MY INTERESTS

Adventurous traveler, music lover, cinephile and geek. I am interested in enhance myself on programming and keeping updated in new technologies and programming languages. I want to participate in multidisciplinary, innovative, creative and, above all, entertaining projects and teams. Share my experience and knowledge, as well as learn from the environment and those around me. For me it is important to know the user. Functionality goes hand to hand with experience!

¿DOG OR CAT?
¿TAB OR DOUBLE SPACE?
¿VIM OR NANO?

2014

MEDIAINTERACTIVE > DEVELOPER ENGINEER

Backend development of web platforms and blogs for customers in services and retail. I made integrations of mockup sites with CMS, administration platforms and webservice for diverse clients.

Some projects,
ANASAC, Travex Security (Peru), Amipass, Ssang Yong, among others

Some technologies,
#PHP #WORDPRESS #DRUPAL #JOOMLA #JS #AJAX #WSDL #JQUERY #BOOTSTRAP #HTML

2013 > 2014

SR3 SpA > DEVELOPER ENGINEER

Backend & mobile developer of web services platforms. Participated in the development of multiple mobile applications and web applications related to the mining industry as well as the printing industry.

Some projects,
CotizImprenta, portal is service of quotation of service of printing developed with PHP and Kohana
SR3Remate, Web application developed in Kohana, for industrial/mining waste auctions
MundoSR3, Mobile applications developed with Phonegap for iOS and Android, to facilitate stationery, signage and labeling of products and industrial substances.

Some technologies,
#PHP #CSS #KOHANA #MVC #JQUERYMOBILE #PHONEGAP #SAAS #NODEJS #JS #JSON

FREELANCE EXPERIENCE

2017 > TODAY

BRINCA > EXTERNAL IT ADVISOR

AWS advisory on server and DNS configuration, website development, among others.

INNKA SpA > RUBY ON RAILS DEVELOPER

AWS and Heroku advisory on server and DNS configuration. Website, new features and modules development.

EDUCACIÓN AL DÍA SpA > PHP & ANDROID DEVELOPER

AWS and Heroku advisory on server security and DNS configuration. Website and new features development.

2010 > TODAY

SONIDOS OCULTOS > WEB DEVELOPER

New website design, development and content administration with WordPress.

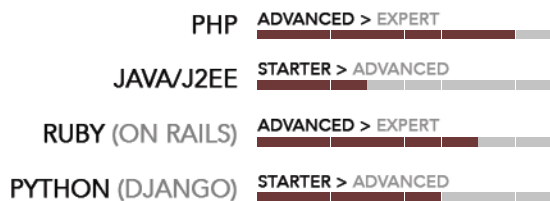

2014 > 2015

EDITORIAL UNIVERSITARIA > EXTERNAL WEB DEVELOPER

New website design, development and content administration with WordPress. Account system, with ecommerce module and online payment.

TECHNICAL SKILLS

PROGRAMMING LANGUAGES

OTHER PROGRAMMING LANGUAGES AND SCRIPTING

JavaScript, ActionScript, C Bash Script, ECMA262, PowerShell Scripts, Google Script, HTML, CSS3, JSON, Ajax, XML (CCXML, VXML, SCXML), SQL, ORACLE PLSQL, PostgreSQL, NoSQL

LIBRARIES & FRAMEWORKS

jQuery, Bootstrap, Angular, Sass, Phonegap

OTHER RELEVANT KNOWLEDGE

I have experience developing with object-oriented programming languages, using design patterns such as MVC or Facade for example. Managing various types of relational and non-relational databases, through direct or mapping systems (ORM, ActiveRecord). Also, I have great experience with a vast variety of libraries and frameworks.

SOFTWARE KNOWLEDGE

OS

LINUX (RHEL/CENTOS, UBUNTU SERVER), OSX, WINDOWS SERVER

IDE

ATOM, ECLIPSE, PYCHARM, RUBYMine, prefer NANO rather than VIM (¡Yes, NANO!) ... and tab indentation rather than double spacing.

EDUCATION & TRAINING

2012 > 2017

COMPUTER ENGINEER > UNIVERSIDAD TECNOLÓGICA DE CHILE

2016

LEARNING PYTHON AND DJANGO > LYNDA.COM

RUBY ON RAILS ESSENTIAL TRAINING > LYNDA.COM

RUBY ESSENTIAL TRAINING > LYNDA.COM

2011

INTERACTION COMPOSER APPLICATIONS > CONVERGYS LEARNING CENTER, DALLAS, TEXAS, EEUU

JAVA CAREER > LINUX CENTER, SANTIAGO, CHILE

1989 > 2002

UPPER/LOWER SCHOOL > COLEGIO SAN IGNACIO EL BOSQUE

LOWER SCHOOL > SAINT GEORGE'S COLLEGE
